Personal Profile

An aspiring Software Developer with a passion for creating intuitive, user-friendly digital solutions. With a strong foundation in web development and programming, along with several years of customer service experience, I bring problem-solving abilities, adaptability, and a user-focused mindset to my work.

My journey into technology began through managing my own Shopify-based business and running a dog boarding and walking service, where I used digital tools to optimise operations and improve client experiences. This sparked my interest in building solutions that simplify real-world processes.

I recently completed an intensive 12-week Software Development Bootcamp and continue to build my skills through self-study, working on projects with **HTML**, **CSS**, **JavaScript**, and **Python**. I am eager to join a dynamic development team, keep growing, and contribute to meaningful projects.

Key Skills

Technical Skills

- **Web Development:** Solid foundation in **HTML**, **CSS**, and **JavaScript** for building responsive websites.
- **Programming:** Experience with **JavaScript** and **Python** for interactive web applications and automation tasks.
- **Version Control:** Proficient in **Git** and **GitHub** for project collaboration and code management.
- **API Integration:** Experience working with third-party APIs to create dynamic applications.
- **Problem-Solving:** Strong debugging skills and logical thinking to resolve technical challenges.
- **IT Skills:** Confident using **Google Workspace**, **Microsoft Office**, and other productivity tools.

Soft Skills

- **Communication:** Excellent verbal and written communication, developed through customer service roles and running my own business.
- **User-Centric Thinking:** Strong ability to understand user needs, ensuring intuitive and accessible software design.

- **Adaptability:** Quick learner with a growth mindset, always eager to explore new technologies.
- **Collaboration:** Team player with experience working in fast-paced, dynamic environments.
- **Time Management:** Proven ability to manage multiple responsibilities, balancing work, study, and personal projects.

Education & Training

Just IT Training Ltd, London (10/2024 - 01/2025)

Digital Skills Bootcamp: Software Development

- Built responsive web applications using **HTML**, **CSS**, and **JavaScript**.
- Developed interactive projects integrating APIs and **Python** scripting.
- Gained hands-on experience in software development workflows and best practices.

FreeCodeCamp (Ongoing)

Responsive Web Design Certification

- Learning and applying modern web development techniques through project-based work.

Sixth Form College, Farnborough (2015 - 2017)

- OCR Cambridge Technical Introductory Diploma in Health & Social Care (D*)
- OCR Cambridge Technical Certificate in Business (D*)
- A Level Sociology (E)
- Advanced Decision Mathematics (D)
- IELTS Score: 6.5

Cove School, Farnborough (2010 - 2015)

- Achieved C in **Maths and English**, along with other subjects.

Work Experience

Tesco Extra, Sandhurst (2017 - Present)

Customer Assistant and other roles (Various Departments)

- Delivered excellent customer service, developing problem-solving and interpersonal skills.
- Adapted to different departments, taking on varied responsibilities.
- Gained strong time management skills by balancing multiple tasks in a busy retail environment.
- Developed a customer-first mindset, similar to designing user-friendly applications.

Dog Boarding & Walking Business (2022 – 2024) (Temporarily stopped to focus on coding)

Owner & Operator

- Managed bookings and client communications via the **Rover app**, ensuring a smooth user experience.
- Used digital tools to optimise scheduling and improve service delivery.
- Built strong client relationships through clear communication and reliable service.

National Citizen Service (NCS) – Summer Program (2017)

- Developed teamwork and leadership skills through a community project.
- Volunteered at a care home, enhancing communication and empathy.
- Strengthened problem-solving abilities through outdoor challenges and group tasks.
- Built confidence and resilience by taking on new challenges outside of my comfort zone.

Projects

- **Website Clone Project** – Built a responsive replica of a well-known website to develop front-end skills.
- **JavaScript API Project** – Created a web app integrating external APIs for real-time data retrieval.
- **Portfolio Website** – Designed and deployed a personal portfolio to showcase technical projects and skills.
- **FreeCodeCamp Projects** – Built five websites using **HTML** and **CSS**.
- **Freelance/Personal Projects** – Developed applications using **HTML**, **CSS**, and **JavaScript**.

Interests & Hobbies

- **Technology & Coding** – Always looking to expand my knowledge by exploring new tools and technologies.
- **Dog Care Business** – Successfully ran a side business, using digital platforms to manage operations.
- **Running & Outdoor Activities** – Helps me stay focused and disciplined.
- **Music** – Keeps me motivated and aids concentration while coding.
- **Reading** – Started to improve my vocabulary and now love reading as a way to expand knowledge, improve focus, and think critically.
